Ideally, use A4 sized paper.

The ten assignments in MATH1061/7861 form a part of the course assessment, and so they *must be the student's own work*. If an assignment contains plagiarised material, it is a violation of the University examination rules. Do not copy from another student's work! Do not use another student's work and rewrite using your symbols! Marks will be deducted if answers do not display independent working. In extreme cases disciplinary action will be taken.

**I declare that this assignment work attached here is my own work.**
