

## Articles and Books on Creationism

by Ken Smith

(last updated 30 June 2006)

The following lists publications in the area of creationism. This is restricted to books or articles. In addition to these, and various pamphlets and information sheets, a number of letters have been published in newspapers and periodicals. Some of the more recent of these letters can be found on the No Answers in Genesis Web site at <http://home.austarnet.com.au/stear/default.htm> (do a search for "Ken Smith").

All reviews of books, whatever the topic, have been collected into a separate list of publications labelled "Reviews". However, for completeness, reviews of books about creationism are also listed here.
